Bob, Tom, Liz, Lowell,

I apologize if I have not connected with the right people; please share as appropriate.

This is a close-hold heads up that I understand EPA is planning shortly to release publicly the report developed by the internal EPA team that reviewed what happened at the Gold King Mine. As I think you know, this team was pulled together quickly and developed a report in just over a week. I believe this report was mentioned in either the EPA or DOI press release or both, related to the independent study DOI is conducting. Our leaders wanted DOI/BOR to be aware of this upcoming release.

Attached is the report itself and attachments.

Please let me know if you have any questions. Thanks - Dana

Dana Stalcup
